

With the start of spring, we have had a very productive first quarter at Komen.

We kicked off February with advocacy in Salem, where volunteers joined us for a wonderful day of meetings with our legislators, in partnership with the American Cancer Society Cancer Action Network. Mid-month, we gathered to celebrate our survivors and fighters, volunteers, community and business partners. Just this month, we both conducted our Eugene Race for the Cure and held our 20th annual Breast Cancer Issues Conference in Portland with simulcast sites in six locations across Oregon. To finish March, our Komen affiliate is participating in the annual Komen Advocacy Summit in Washington, DC, meeting with our congressional delegation, despite an early spring snowstorm!

As we look forward to the next quarter and the beginning of our new fiscal year in April, we have our sights set on the upcoming Lunch for the Cure on April 11, with a wonderful program in store for our guests. We are also planning our next Metastatic Dinner Series in May. And our board will soon be approving our annual investment in Komen programs and partnerships in the community, supporting breast health and breast cancer patients in the continuum of care.

As always, we are forever grateful for your trust and investment in Komen's vital work serving the breast cancer community. Thank you for helping us advance toward our **Bold Goal** to reduce breast cancer deaths in half in the US by 2026. Together, we truly are **More than Pink!**

Warmly,

Andrew Asato
Chief Executive Officer
