ABOUT SUSAN G KOMEN® AND KOMEN OREGON & SW WASHINGTON

Susan G. Komen is the world's largest breast cancer organization, funding more breast cancer research than any other nonprofit outside of the U.S. government while providing real-time help to those facing the disease. Komen has set a Bold Goal to reduce the current number of breast cancer deaths by 50 percent in the U.S. by 2026. Since its founding in 1982, Komen has funded more than \$956 million in research and provided more than \$2.1 billion in funding to screening, education, treatment and psychosocial support programs. Komen has worked in more than 60 countries worldwide. Komen was founded by Nancy G. Brinker, who promised her sister, Susan G. Komen, that she would end the disease that claimed Suzy's life. Komen Oregon & SW Washington has invested \$20.7 million in community breast health programs in 39 counties and has helped contribute to the more than \$1 billion invested globally in research.

ELIGIBILITY REQUIREMENTS

- Individuals are not eligible to apply.
- Applications will only be accepted from governmental organizations under Section 170(c)(1) or nonprofit organizations under Section 501(c)(3) of the Internal Revenue Service (IRS) code. Applicants must prove tax-exempt status by providing a letter of determination from the IRS.
- Only programs associated with the state Breast and Cervical Cancer Programs in Oregon and Washington may apply.
- Proposed projects must be specific to breast health and/or breast cancer and address the priorities identified within this RFA. If a project includes other health issues along with breast cancer, such as a breast and cervical cancer project, funding may only be requested for the breast cancer portion.
- All past and current Komen-funded projects must be in compliance with Komen requirements. If applicant, or any of its key employees, directors, officers or agents is convicted of fraud or a crime involving any other financial or administrative impropriety in the 12 months prior to the submission deadline for the application, then applicant is not eligible to apply for a grant until 12 months after the conviction. After such 12-month period, applicant must demonstrate in its application that appropriate remedial measures have been taken to ensure that any criminal misconduct will not recur.
- Applicants are only eligible to receive one grant per funding cycle.
- Programs providing transportation assistance may not duplicate services provided by the Komen Treatment Access Program (<https://komenoregon.org/community-impact/our-programs/treatment-access-program/>)

ELIGIBLE SERVICE AREA

Applicants must provide services to **residents** of one or more of the following locations:

- Oregon
- Washington (Clark, Cowlitz, and Skamania Counties)

FUNDING PRIORITIES

Komen Oregon & SW Washington is offering two screening & diagnostic grants to support breast cancer projects that address this specific funding priority, which was selected based on data from the current Komen Oregon & SW Washington Community Profile, found on our website at <https://komenoregon.org/community-impact/>.

Komen Oregon & SW Washington will award grants to programs who administer the Oregon Breast and Cervical Cancer and Washington Breast, Cervical, and Colon Health Programs. One grant will serve the SW Washington counties of Clark, Cowlitz, and Skamania, and a second grant will serve all 36 counties in Oregon, both under an equitable allocation process. While funds are for the two service areas, as a whole, the Community Profile specifies that priorities lie in the improvement of breast cancer screening and late-stage diagnosis rates for residents of Cowlitz County, Curry County, Linn County and women of color in Clackamas County, Multnomah County, and Washington County.

The Affiliate seeks to fill in the gaps in other funding streams (state / federal / etc.) in order to allow the programs to offer no-cost or low-cost breast cancer screening and, as funds allow, diagnostic and genetic services to those who would not otherwise be covered. This includes eligible women and men whose income is less than 250% of the Federal Poverty Level, people who are uninsured or underinsured, as defined by the applicant organization.

ALLOWABLE COSTS

Applicants may request funding from \$2,000 up to \$25,000 (combined direct and indirect costs) for one year. All requested costs must be directly attributable to the project, provide an estimated cost calculation and include a brief justification explaining why the costs are necessary to achieve project objectives:

- **Supplies**
Resources needed to achieve project objectives.
- **Travel**
Conference registration fees/travel or mileage reimbursement by project staff or volunteers necessary to achieve project objectives.
- **Patient Care**
Costs for providing direct services for a patient to achieve project objectives.
- **Other Direct Costs**
Direct costs directly attributable to the project that cannot be included in existing budget sections.

- **Indirect Costs, not to exceed [10] percent of direct costs**

These include costs for supporting the project such as, allocated costs such for facilities, technology support, communication expenses and administrative support. Indirect cost requests of over 10% will only be considered up to a maximum of 25% from tribal and governmental organizations whose indirect cost rate is set by the federal government. Rates over 10% must be approved by the Affiliate prior to application submission.

NON-ALLOWABLE COSTS

- Research, defined as any project activity with the primary goal of gathering and analyzing data or information.
 - Specific examples include, but are not limited to, projects or programs designed to:
 - Understand the biology and/or causes of breast cancer
 - Improve existing or develop new screening or diagnostic methods
 - Identify approaches to breast cancer prevention or risk reduction
 - Improve existing or develop new treatments for breast cancer or to overcome treatment resistance, or to understand post-treatment effects
 - Investigate or validate methods or tools
- Education regarding breast self-exams/use of breast models. According to studies, teaching breast self-exam (BSE) has not been shown to be effective at reducing mortality from breast cancer
- Development of educational materials or resources that either duplicate existing Komen materials or for which there is not a demonstrated need. Applicants can view, download and print all of Komen's educational materials by visiting <http://ww5.komen.org/BreastCancer/KomenEducationalMaterials.html>. If an applicant intends to use supplemental materials, they should be consistent with Komen messages.
- Education via mass media (e.g., television, radio, newspapers, billboards), health fairs and material distribution. Evidence-based methods such as one on one and group sessions should be used to educate the community and providers.
- Construction or renovation of facilities/ land acquisition
- Political campaigns or lobbying
- General operating funds (in excess of allowable indirect costs)
- Debt reduction
- Fundraising (e.g., endowments, annual campaigns, capital campaigns, employee matching gifts, events)
- Event sponsorships
- Projects completed before the date of grant approval
- Project-related investments/loans
- Scholarships
- Thermography
- Equipment over \$5,000 total
Projects or portions of projects not specifically addressing breast cancer
- Salaries and benefits for staff and/or consultants.

BREAST CANCER EDUCATION

To reduce confusion and reinforce learning, Komen will only fund projects that use approved educational messages and materials that are consistent with Komen messages. Please be sure that your organization can agree to promote the messages listed here:

<http://ww5.komen.org/BreastCancer/BreastSelfAwareness.html>.

If an applicant wants to develop educational resources, they must discuss with Komen prior to application submission and provide evidence of need for the resource.

Komen has developed breast cancer education toolkits for Black and African-American communities and Hispanic/Latino communities. They are designed for health educators and organizations to meet the needs of their communities. The Hispanic/Latino toolkit is available in both English and Spanish. To access these toolkits, please visit <http://komentoolkits.org/>.

PROJECT OBJECTIVES

All applicants are required to develop project objective(s) to:

Reduce breast cancer mortality by addressing disparities, increasing access to quality and timely care, and/or improving outcomes through patient navigation.

All projects must have at least one **Specific Measurable Attainable Realistic Time-bound** (SMART) objective that will be accomplished with Komen funding and can be evaluated including an estimated timeline and the anticipated number of individuals to be served.

Guidance on crafting SMART objectives is located here:

<https://ww5.komen.org/WritingSMARTObjectives.html>.

PROJECT NARRATIVE

Statement of Need

- Describe evidence of the need for the project and explain the target population (including age, race, ethnicity, geographic location) to be served using demographic and breast cancer mortality statistics.
- Explain how project objectives will address the stated funding priorities.
- Describe how your organization is best-suited to run this program. Describe how Komen funding will bridge the coverage gap between other funding sources.

Project Design

- Describe what will be accomplished with project funding and the strategy to reduce breast cancer mortality and increase the percentage of people who enter, stay in or progress through the continuum of care.
- Explain how the project incorporates evidence-based practices providing citations for all references.
- Explain how the requested budget and budget justification support the project objectives.
- Explain how project staff are best suited to accomplish project objectives.

- Describe the equipment, resources, tools, space, etc., that the applicant organization possesses or will utilize to implement all aspects of the project.
- Describe who will be served by the program, including the age, sex, and income levels, if they differ from the CDC guidelines for the National Breast and Cervical Cancer Early Detection Program (NBCCEDP). Guidelines can be found here <https://www.cdc.gov/cancer/nbccedp/>.
- Explain how people will be referred to and accepted into the program.

Partners and Sustaining the Project

- Explain how collaboration strengthens the project.
- If applicable, describe past accomplishments with breast cancer projects that address our funding priorities. If the proposed project is new, describe success with other breast cancer projects.
- Describe the resources to be used to implement the project.
- Describe any plans and/or partnerships for project sustainability after the funding period ends.
- How will the program ensure people are helped for the entire 12 months of the grant period?
- Describe the plan for treatment beyond screening and diagnostic services.

Impact and Evaluation

- Describe how the project objectives will help Komen's Bold Goal to reduce the number of breast cancer deaths by 50% by 2026, whether it be by addressing disparities, increasing access to quality and timely care, and/or improving outcomes through patient navigation.
- Describe the resources and expertise that will be used for monitoring and evaluation during the performance period.
- Describe how the organization(s) will measure progress toward the stated project goal and objectives, including the specific evaluation tools that will be used to measure progress. These tools can include client satisfaction surveys, pre- and post- test, client tracking forms, etc.

REVIEW PROCESS

Each grant application will be reviewed by at least three reviewers from the community, who will consider each of the following criteria:

Statement of Need 20%:

- How well has the applicant identified the need for the project and explained the target population to be served?
- To what extent do project objectives address the stated funding priorities?
- How well has the applicant explained how they are best-suited to conduct this program?
- How well has the applicant described how Komen funding will bridge the coverage gap between other funding sources?

Project Design 35%:

- How successful was the applicant at describing the strategy to reduce breast cancer mortality?
- How well has the applicant described what will be accomplished with project funding?
- To what extent does the project include evidence-based practices?
- How well does the budget and budget justification support project objectives?
- To what extent does project staff have the expertise to effectively implement and provide fiscal oversight of the project?
- How well has the applicant described the tools they possess or will utilize to implement all aspects of the project?
- How well has the applicant clearly defined who will be served in the program, as well as the process for eligibility, and how they will be served?

Partners and Sustaining the Project 20%:

- How well does the applicant explain the roles, responsibilities and qualifications of project partners?
- How well has the applicant demonstrated evidence of success in delivering services consistent with the stated funding priorities?
- How well has the applicant described the resources to implement the project?
- To what extent does the applicant have the capacity to manage the project?
- To what extent does the applicant have any plans and/or partnerships for project sustainability after the funding period ends?
- To what extent will the program ensure people are helped for the entire 12 months of the grant period?
- To what extent is there a plan for treatment beyond screening?

Impact and Evaluation 25%:

- To what extent do project objectives impact Komen's bold goal to reduce the number of breast cancer deaths by 50% by 2026?
- To what extent does the evaluation plan aim to collect the relevant required metrics?
- To what extent are the applicant's monitoring and evaluation resources likely to adequately evaluate project success?

REQUIRED REPORTING METRICS

If awarded project funding, grantees will be required to report on the Demographics in addition to the metrics related to approved objectives listed below.

Demographics

State of residence; County of residence; Age; Gender; Race; Ethnicity; Special Populations.

Education & Training

Type of session; Number of individuals reached by topic area; Follow-up completed; Action taken; If health care provider training, total number of providers trained in each session and number by provider type.

Screening Services

First time to facility; Number of years since last screening; Screening facility accreditation; Count of screening services provided; Screening result; Referred to diagnostics; Staging of breast cancer diagnosed resulting from screening services.

Diagnostic Services

Time from screening to diagnosis; Diagnostic facility accreditation; Count of diagnostic services provided; Staging of breast cancer diagnosed resulting from diagnostic services; Referred to treatment.

Treatment Services

Time from diagnosis to beginning treatment; Treatment facility accreditation; Count of treatment services provided; Count of patients enrolled in a clinical trial.

Treatment Support

Count of treatment support services provided: system management, individual or group psychosocial support, complementary and integrative therapies, palliative care, durable medical equipment.

Barrier Reduction

Count of barrier reduction assistance services provided: transportation, interpretation/translation services, co-pay/deductible assistance, daily living expenses, childcare.

Patient Navigation, Care Coordination & Case Management

Time from referral to screening; Accreditation of screening facility navigated to; Time from abnormal screening to diagnostic resolution; Accreditation of diagnostic facility navigated to; Staging of breast cancer diagnosed resulting from community or patient navigation; Time from diagnostic resolution to beginning treatment; Accreditation of treatment facility navigated to; Patient enrolled in a clinical trial; Individual completed physician recommended treatment; Survivorship care plan provided.

SUBMISSION REQUIREMENTS

All applications must be submitted online through the Komen Grants Portal at komen.smartsimple.com before the application deadline to be considered.

The application process is competitive, regardless of whether or not an organization has received a grant in the past. Funding in subsequent years is never guaranteed.

CHECKLIST FOR APPLICATION COMPLETION

- **Eligibility Requirements** – Applicant meets all eligibility requirements as stated in the Komen Grants Portal and in this Request for Applications.

-
- **Allowable Costs** – All proposed costs are directly attributable to the project, provide an estimated cost calculation and include a brief justification explaining why the costs are necessary to achieve project objectives.
 - **Non-Allowable Costs** – non-allowable costs are not included in the application.
 - **Breast Cancer Education** – Applicant can agree to promote Komen’s education messages listed here: <http://ww5.komen.org/BreastCancer/BreastSelfAwareness.html>
 - **Project Narrative** – Applicant has addressed each question in the Statement of Need, Project Design, Partners and Sustaining the Project, and Impact and Evaluation sections.
 - **Project Objectives** – Proposed objectives are SMART, will be accomplished with Komen funding, and aim to reduce breast cancer mortality by addressing disparities, increasing access to quality and timely care, and/or improving outcomes through patient navigation.
 - **Proof of Tax-Exempt Status** – To document the applicant’s **federal tax-exempt status**, provide a letter of determination from the Internal Revenue Service. Evidence of state or local exemption will not be accepted. Please do not provide a Federal tax return.
 - **Resume/Job Description** – For key personnel that are currently employed by the applicant organization, provide a resume or *curriculum vitae* that includes education level achieved and licenses/certifications obtained. For new or vacant positions, provide a job description (*Two-page limit per individual*).
 - **Letters of Support / Memoranda of Understanding** – From project partners identified in the Project Narrative / Partners and Sustaining the Project section.
 - **Assurances** – Applicant assures compliance with the following policies if awarded project funding:
 - Recipients of services must reside in the Affiliate Service Area.
 - The effective date of the grant agreement is the date on which Komen fully executes the grant agreement and shall serve as the start date of the project. No expenses may be accrued against the project until the grant agreement is fully executed. The contracting process can take up to six weeks from the date of the award notification letter.
 - Any unspent funds over \$1.00 must be returned to Komen.
 - Grant payments will be made in installments pending acceptance of and compliance with terms and conditions of a fully executed grant agreement.
 - Grantee will be required to submit a minimum of one semi-annual progress report and one final report that will include, among other things, an accounting of expenditures and a description of project achievements. Additional reports may be requested.

-
- At the discretion of Komen, the grantee may request one no-cost extension of no more than six months per project. Requests must be made by grantee no later than 30 days prior to the end date of the project.
 - Certain insurance coverage must be demonstrated through a certificate of insurance at the execution of the grant agreement, if awarded. Grantee is required at minimum to hold:
 - Commercial general liability insurance with combined limits of not less than \$1,000,000 per occurrence and \$2,000,000 in the aggregate for bodily injury, including death, property damage and advertising injury;
 - Workers' compensation insurance in the amount required by the law in the state(s) in which its workers are located and employers' liability insurance with limits of not less than \$1,000,000; and
 - Excess/umbrella insurance with a limit of not less than \$5,000,000.
 - To the extent any transportation services are provided, \$1,000,000 combined single limit of automobile liability coverage will be required.
 - To the extent medical services are provided, medical malpractice coverage with combined limits of not less than \$1,000,000 per occurrence and \$3,000,000 in the aggregate will be required.
 - Grantees are also required to provide Komen with a certificate of insurance with Susan G. Komen Breast Cancer Foundation, Inc., Susan G. Komen Oregon & SW Washington, its officers, employees and agents named as Additional Insured on the above policies solely with respect to the project and any additional policies and riders entered into by grantee in connection with the project.
